

What is "curbside care"?

Unfortunately during COVID, our doors are locked to the public to promote social distancing.

When you arrive for your pet's appointment, please call from your car so that our staff can come outside to greet you.

We will review your information and address questions, then bring your pet inside.

If you have not coordinated a drop-off appointment, please stay on site so that we can quickly reach you to relay information, and discuss any questions .

When your pet's appointment is finished, we escort them back outside to you and review any important details.
